Special Report

COMMUNIST VIOLATIONS OF
THE VIETNAM AND LAOS SETTLEMENT AGREEMENTS*

(This report covers the period from
16 March through 19 March 1973)

1. We have no evidence of additional North Vietnamese troops starting the infiltration trip south since our 16 March report on violations

at least some of the infiltrators already in the pipeline continued to move south as of 18 March.

3. In South Vietnam as a whole, the number of combat incidents initiated by the Communists in violation of the cease-fire terms decreased somewhat over the past weekend, but Communist forces did increase the level of their activity in the area northwest of Saigon. On 19 March, activity in this area once again died down.
